

58-Gallon Low-Profile Diesel Carrytank

JDI-AFT58LP

NOTABLE FEATURES

- Rugged linear polyethylene construction
- 12-volt transfer pump delivers fuel at 10 gallons per minute
- Integrated forklift pockets for moving when full
- Molded handles make it easy to lift and carry when empty
- Integrated recesses for securing tank with ratchet straps during transport

Easily transport and transfer diesel fuel in the back of a pickup truck. This Low-Profile Diesel Carrytank is specifically designed to fit flush within the bed of a pickup truck so you get the convenience of a portable refueling station for your farm, construction, recreational, industrial, and fleet locations.
